'Coachcast' by England Football Learning has just launched.

The brand-new coaching podcast is designed to give you insight, session ideas and a platform to discuss your questions and challenges.

In each episode, an FA coach will dissect a specific topic and then speak to a grassroots coach, with the aim of helping them, and others, develop more skilful players.

In episode one we're joined by our early years specialist, Pete Sturgess, to talk about how to create the right environment for primary-age kids.

Premier League Defibrillator Fund

The Premier League Defibrillator Fund will support the installation of Automated External Defibrillators (AEDs) and External Storage Cabinets at thousands of grassroots football facilities currently without an easily accessible device on site.

Rolled out across two phases, the Fund will see more than 2000 sites benefit from this investment with the first 1,000 units delivered in time for the start of the 2021/22 season and the second wave expected in September. Once installed, the AEDs will be accessible, if required, to an estimated 1.5m people that use these facilities per season.

Going forward, the Premier League is working with partners at The FA and Sport England to ensure that facilities funded by the Football Foundation incorporate this equipment in the future.
