COMMERCIAL TURF

JOHN DEERE X380 RIDE ON MOWER with 48" deck and twin cylinder 22HP Kawasaki engine is compact yet powerful. It's easy-to-operate with Twin Touch™ transmission control pedals which allow you to easily control the direction and speed of travel without having to lift your foot off the platform. Use the convenient dial to adjust the cutting height in 6 mm steps – all from the comfort of your seat. The clear, car-style instrument display is backlit for excellent visibility in all conditions. The overall design provides important feedback without distracting operators. Power steering and hydraulic deck create a comfortable drive with effortless operation.

SCH 48" TOWED CARRIER FRAME + AERATOR ATTACHMENT is an ideal tool to improve drainage and allow air to penetrate to the roots. Aeration is important to reduce surface water, reduce turf compacting, reduce thatch build up and boost the health of lawns and the SCH Towed Aerator will serve your aeration needs to provide top class lawn treatment. Its three 25 litre tanks, when filled with water, provide ample weight to help penetrate hard surfaces.
