CLUB MARKING OF REFEREES

Both teams are required to award the referee a mark in all matches on a scale of 1-100 based on the following guide:

Guide to Marking

The mark awarded by a club must be based on the referee's **overall** performance. It is most important that the mark is awarded fairly and not based upon isolated incidents or previous games. The Referee's performance should be determined by the table below, which should act as a guide for the overall mark, which should fall within the mark range for each standard of performance.

MARK RANGE	COMMENT
91-100	The Referee was extremely accurate in decision-making and very successfully controlled the game using management and communication skills to create an environment of fair play, adding real value to the game.
81-90	The Referee was very accurate in decision-making and successfully controlled the game using management and communication skills to create an environment of fair play.
71-80	The Referee was accurate in decision-making and controlled the game well, communicating with the players, making a positive contribution towards fair play.
61-70	The Referee was reasonably accurate in decision-making, controlled the game quite well and communicated with the players, establishing a reasonable degree of fair play.
51-60	The Referee had some shortcomings in the level of accuracy of decision-making and control, with only limited success in communicating with the players resulting in variable fair play.
50 and below	The Referee had significant shortcomings in the level of accuracy of decision-making and control with poor communication with the players, which resulted in low levels of fair play.
