The Registration Scheme provides players with the required level of insurance cover to meet the requirements of the FA Standard Code of Rules that include a provision whereby it is mandatory for all players registered to open-aged Clubs to be members of a players' personal accident scheme.

What benefits do I receive?

Registration provides registered players with Player-to-Player Liability insurance and Personal Accident insurance, the terms of which can be found on the JFA website or by request by emailing info@JerseyFA.com. Players may also choose to purchase additional Personal Accident insurance.

Coverage under this scheme will be provided automatically when a player's registration is cleared by the JFA.

Penalties for Non-Payment.

Where a player who has not paid the ARF plays football for clubs affiliated to the JFC, JFA or for JFA and JFC representative teams, that club may be fined by the JFA and the result of the match may be awarded to the opposing team. The player may be suspended by the JFA from playing football for clubs affiliated to the JFA or for JFA or JFC representative teams. Such suspension will last until such time as the ARF is paid and clearance to play is authorised by the JFA or, until the end of the football season within which the payment would have applied.

How will a Club know which players have paid?

The JFA will provide each club by e-mail on a regular basis their registered players list, i.e. those who have paid their registration fee and been cleared to play by the JFA. Clubs can also 'self serve' and check their list of registered players through an Internet portal.

What happens when players transfer during season?

Player transfers during the season will have no effect on the Registration scheme

Refund Policy.

The JFA doesn't offer refunds for registration fees, although a full refund will be offered for any payment taken in error.
