## 4. PAGE TWO - PLAYER STATISTICS

4.1 Finally, you will need to complete your player statistics. From this page you will need to "check" your starters, substitutes and other match stats such as goals and assists (this depends if the leagues allow it).

There are also two options at the top, "Switch to Quick Stat Entry" and "Switch to Simple View".

4.2 If a goal is scored from a penalty this does not need to be added into the goals column as well and should be recorded as a penalty only.

On the stats page the Total Goals column will show the total from Goals (in normal play) and Penalties.

## 5. Quick Stat Entry

5.1 Selecting the quick stat entry allows you to enter the starting line-up, bench and unused bench players along with the captain, goal scorers, penalties, own goals, yellow and red cards, and sin bins.

## 6. Simple View

6.1 Switching to simple view allows you to enter the players name type of stat you would like to enter for them and the minute the statistic occurred. If you would like to add assists you can do so by entering the players name in the assist box below the stat box.
