

FA 'BRINGING OPPORTUNITIES TO COMMUNITIES' PHASE 2 'YOU SAID, WE DID' TOUR 2020

Bringing Opportunities to Communities was The FA's first plan to address Asian Inclusion in the grassroots game. This plan was launched in 2015 after consultation with Asian communities in eight different parts of the country and over 500 people. After the delivery of that plan, The FA consulted again with the same communities in 2018, before designing and launching the second phase of *Bringing Opportunities to Communities* in April 2019, our new three year plan. During our consultation in 2018, we promised that we would come back to those same eight Asian community heartlands to tell you in person what we were going to do next and what had so far been achieved. Below is the list of those forums with a booking link, please use the drop down menu on the sheet to select your chosen venue.

Anyone wanting to attend these events MUST, due to security requirements book via this booking link: [Book here](#)
