Work Permits

To be eligible to become a Sponsor and issue Certificates of Sponsorship to a player a Club must be in membership of the Premier League or the Football League.

Criteria for Players

The set football criteria for a player to meet when entering the country has not changed with the new system.

There are two levels of entry – Tier 2 and Tier 5. Clubs should note that entry under Tier 2 requires that players from a non-English speaking country achieve a pass in an English language test prior to entry. In the event that

the player does not have the level of English required, he will only be able to enter the country under Tier 5 for a maximum of 12 months at a time and will need to pass the English test within those 12 months to enable him to switch over to Tier 2 employment for the remainder of his contract.

Panel hearings

In the event that a player does not meet the set criteria, an appeal panel will be convened to consider the application. The panel will consist of representatives from the relevant football governing bodies together with three independent football experts. The panel's terms of reference are: (1) to consider whether the player is of the highest calibre and (2) to consider whether the player is able to contribute significantly to the development of the game at the top level in England.

New Regulations for the International Transfer and First Registration of Players under the age of 18

Clubs at all levels will need to be aware of new FIFA Regulations and related procedures which have been introduced to strengthen FIFA's position on the protection of minors.

Since FIFA introduced revised Regulations in 2001 they have prohibited the international transfer of minors in all but a few exceptional circumstances. FIFA's updated Regulations for the Status and Transfer of Players, which became effective on 1st October 2009, introduced a sub-committee to monitor and control every international transfer of a minor **and** every first registration of a minor who is not a national of the country in which he wishes to be registered.

FIFA have now clarified that the sub-committee will **not** be involved in processing applications for players under the age of 12 (Academy and Centre of Excellence forms).

For further clarification a minor player holding a UK Passport and crossing borders to register for a Club under the jurisdiction of one of the National Associations for the first time within the UK (England, Scotland, Northern Ireland and Wales) **IS EXEMPT** from this new system but international clearance will still apply.

The new Regulations will be implemented through a web-based system that FIFA have introduced for National Associations. FIFA TMS (Transfer Matching System) is designed to allow FIFA to monitor the international transfers of professional players. It also has an element devoted to monitoring the international transfers and registration of all minors.

You should note that the sub committee's approval (ages 12 – 18) must be in place before the new Association is able to process the final piece of the jigsaw – the International Clearance Certificate.

The implications for clubs at every level of the game are:

- Comprehensive written evidence will be required by The FA to support the request for an International Transfer Certificate for a minor.
- The evidence will need to be provided in PDF format as this is the only format accepted by FIFA TMS.
- There may be delays in obtaining permission for the international transfer of a minor compared with applications under the previous system. The days of quick turnarounds are over.
- Standard decisions are expected to take 2-3 weeks and longer delays of up to six weeks may be encountered where the foreign Association disputes the request for the international transfer.

I would strongly urge you to factor the potential delays into your business plans, particularly ahead of the critical registration periods at professional level, and ensure that all of your staff begin the process in good time to avoid being defeated by the countdown clock (e.g. January transfer window).

Accompanying this letter are documents giving further details of exactly what evidence is required in order for The FA's Registration Department to complete a request for a minor's transfer or first registration. You will note from the papers that the documentary evidence varies depending on the status of the player (amateur or professional) and the reason for the request.

Copies of the FIFA Regulations and the supporting documentation will be made available on The FA's website. The link to FIFA's site is as follows:

www.fifa.com/mm/document/affederation/administration/66/98/97/regulationsstatusandtransfer_en_1210.pdf

Analysis of the players transferred internationally over the past 12 months suggests that the number of applications The Football Association will receive in any 12 month period is likely to be no more than 1,000. Of those many will fall within the National Game where players' families are moving to England for reasons not linked to football. In addition there will be a number of young players who will be registered at Football Academies or Centres of Excellence within the Professional Game between the ages of 16 and 18 and who will fall into the categories to be monitored by FIFA.

Should you require further information or have any questions on the new procedure when you have cause to request international clearance for a minor please contact our Registrations Team at:

FIFA Article 19 – Clearances for Minors

For players under the age of 12 who have lived permanently in England but who have a foreign place of birth and/or nationality no action is required. If the player came to England from abroad before he/she was 12 then the same applies. In both cases there are no hurdles in respect of registering and playing for a club.

It is vital that clubs familiarise themselves with FIFA Article 19 before starting the registration process.

International transfers are only permitted if the player is over the age of 18. The following three exceptions apply:

- The player's parents move to England for non football reasons
- The transfer takes place within the EC/EEA and the player is aged between 16 and 18 in which case the new club is obliged to carry out the following minimum requirements:
 - i) it shall provide the player with an adequate football education and/or training in line with the highest national standards
 - ii) it shall guarantee the player an academic and/or school and/or vocational education and/or training, in addition to his/her football education and/or training, allowing the player to pursue a career other than football should he cease playing professional football
 - iii) it shall make all necessary arrangements to ensure that the player is looked after in the best possible way (optimum living standards with a guest family or in club accommodation, appointment of a mentor at the club etc)
 - iv) it shall, on registration of a player, provide the relevant Association with proof that it is complying with the aforementioned obligations; or

- The player lives no further than 50km from a national border, and the club for which the player wishes to be registered in the neighbouring Association is also within 50km of that border. The maximum distance between the player's address and the club's headquarters/training centre shall be 100km. In such cases, the player must continue to live at home and the two Associations involved must give their explicit consent.

Terminating Dates for Non-League Contract Players

First Saturday in May, as follows

1st May 2010
7th May 2011
5th May 2012
4th May 2013
3rd May 2014

These dates MUST be adhered to.

For clarification, it is permissible to cease paying the player on the last scheduled fixture date of the season (e.g. Saturday, 24th April 2010) in which case, this must be reflected in the remuneration section of the contract.

This date would need to be inserted in the payment schedule with the actual Contract and G2 continuing to expire on the dates shown above.
