Away matches are generally within the South West London area

A brief description of the club

We were established in 2013 and since forming have worked our way into the Wimbledon & District Premier Division where we have remained for several years. We also participate in the AFA Senior Cup, as well as the Wimbledon & District Centenary Cup. We operate one, competitive first team squad. All players who join as full members receive full personalised Puma tracksuits.

We have seen 2 players recently make the jump to semi-professional football and as a result are looking for players who will improve a competitive and strong squad, particularly strikers and centre midfielders as we aim to maintain the challenge for silverware.
