

Berks & Bucks FA Female School-Club Link

Background

- A school-club link is a formal agreement between a school and a community club that creates a mutually beneficial partnership between the two. The link provides a pathway for young people from school football to community football, engaging them in football as participants, volunteers, coaches and/or officials.
- School-club links help create a channel of regular and effective communication between schools and clubs and by creating these strong relationships this can encourage regular and lifelong participation in sport, reducing the drop-out rates associated with young people.
- A strong school-club link will also provide structured activity for pupils to participate regularly whether that is in coaching sessions, competitions or leadership opportunities.
- As a result of the school-club link, more young people will hopefully take part in football; either as a player, coach or official therefore increasing young people's enjoyment and participation in lifelong physical activity.

Programme Outline

- Process begun by EOI Form circulated to Clubs and Schools
- Those not already familiar will be introduced
- Joint application submitted by School and Club co-operatively
- Applications assessed and accepted links will be required to attend online introductory session further detailing programme and opportunity to ask any questions and gain clarification
- Formal Link forged between 1 School & 1 Club bound by an SLA
- Travel time from School to Club will not exceed 20 mins
- BBFA to circulate Marketing Materials to Advertise Link – Both School and Club **MUST** advertise Link
