

BERKS AND BUCKS FA FUNDING GUIDE

2017 VERSION 1

[CLICK HERE
TO BEGIN](#)

INTRODUCTION

Welcome to the Berks & Bucks FA Funding Guide, which has been produced to support clubs and individuals in identifying and obtaining funding. This Guide is not an exhaustive list of potential funding, and whilst we will update the Guide with new sources of funding, the conditions and timeframes of grants can change.

HOW TO USE

There are a variety of funding pots relating to different locations and areas of football. In order to ensure that only the relevant sources of funding are highlighted, you will be required to select the local authority in which you are situated and then the area of football the funding will be used for.

Before viewing the list of funding options available to you and your club, we have provided an application advice section. We have kept this section as clear and concise as possible, and would strongly recommend familiarising yourself with this before proceeding with any application.

Once you have read the 'application advice' section you will be presented with a list of potential funding grants. Depending on which area of funding you have selected, the identified grants may be grouped to assist you further in selecting the most appropriate source of funding.

Please note that where these have been grouped by funding amounts, we have put them into the funding bracket in which they most commonly award grants for, meaning that some grants may award smaller or larger sums of money on a case-by-case basis.

If you identify a funding pot that you are interested in, then by selecting this funding pot you will be taken to the website of the organisation that manages the grant, which will provide you with further information.

If you have any queries relating to the guide or would like to add an additional funding pot please contact jonathan.wood@berks-bucksfa.com

APPLICATION ADVICE

Funding applications can vary widely between organisations, and the level of detail will also alter dependant on the level of funding you are looking to acquire. Please see some helpful tips below:

- Please read the entire application through before attempting to respond to any questions. This should enable you to gain a greater understanding into the objectives of the organisation.
- Identify any suitable case studies highlighted by the funder, or alternatively contact another club that you are aware of that has been successful in applying.
- It's never too early to pick up the phone and seek advice from the BBFA Football Development Team. Please ensure that you do speak with us before submitting your final application form.
- Within the terms and conditions some funders will require monitoring details relating to the impact the funding has had. Please familiarise yourself with this, and ensure you are able to commit to this moving forward and that the project will achieve the results outlined.
