ALICE WRIGHT

CLUB: MK DONS

How long have you been playing Football for?

I have been playing football for 7 years
(since I was six)

What do you enjoy most about playing Football?

As a goalkeeper, I love saving really hard shots.
It feels rewarding, like I have accomplished something

What have been your biggest achievements since the programme began?

I received Save of the Year in 2020/21 season and the Keeper Cup 2022 with The Keeper coaching company. I also joined MK dons u14 Regional Netball team.

What challenges have you experienced since the programme began and how did you overcome them?

Since joining regional and county netball in 2020, I found playing two sports to a high level increasingly tricky. It was a tough and challenging decision but I decided to focus on netball while still playing school football at Aylesbury High School and training weekly with my keeper coach as I still love keeping.

What has been the most useful support you have accessed through the programme?

(i.e., Equipment, Funding for Qualifications/ Reg Fees)

I donated my equipment funding to my primary school, Milton Keynes Preparatory School. This was really helpful as the girls team had just started out in 2018 and we didn't have uniforms. The money paid for football shorts and socks for the squad.

Which Womens Euros games are you most looking forward to? Have you got tickets for any games?

I am looking forward to watching the England matches on television and watching two matches at Stadium MK
