WHERE THE JOURNEY BEGINS GRASSROOTS FOOTBALL

The breadth and depth of grassroots football in England means it is uniquely placed to change people's lives by bringing communities together and positively impact society.

Grassroots football is defined as any football where the main driver is the love of the game. The 14m+ people who play in England equates to a quarter of the population.

It means the scale, reach and interest in grassroots football makes it uniquely placed to have a positive impact on the nation.

County FAs, such as Cambridgeshire FA, are committed to serving those that participate and are involved in the game, providing the leadership needed to ensure future generations benefit from it as much as those that have gone before.

ABOUT THE CAMBRIDGESHIRE FOOTBALL ASSOCIATION
