**Club Charged**

██████████ – Charged with causing the match to be abandoned v ██████████ 24/10/20. The match had been abandoned after 67 minutes due to the behaviour of ██████████ players and supporters with ██████████ leading 4-0. As this case had been found proven by the Disciplinary Committee, the Committee ruled that the score at the time of the abandonment would stand as the final result of the game. C J Hills and R K Pawley took no part in this item.

**Postponed County League Matches**

The Committee agreed that every match postponed by a Club giving Covid 19 as the reason for the postponement would be treated on merit and that players not wishing to play would not be forced to play against their wishes. The 7 postponed matches on the Agenda for Covid reasons would all be rearranged and all Clubs postponing future matches for Covid reasons will not be charged, but all such matches would be recorded on the spread sheet of postponed matches.

Lakenheath Casuals Res. had postponed their match on 19/12/20 due to a player shortage and, due to the uncertainty of the future of the team, it was agreed that action on this postponement would be delayed until the situation with the team is clearer.

**Completion of the Season**

A discussion took place on possible action to be taken on deciding Leagues if we are again unable to complete the season. The Football Association have stated that a sporting decision on this can be made by the Committee. It was agreed that, due to the previous suspension of fixtures and a possible future further suspension, the season will be extended until the end of May 2021.

The Clubs will be circulated on this extension and asked to confirm ground availability during the month of May for midweek matches. Saturday matches will not be arranged during the extension unless mutually agreed by the Clubs concerned. Clubs will also be asked to confirm that they are happy for the Committee to decide the season on a sporting outcome if fixtures are not completed.
