## WHO WE ARE

The only wearable footwear-mounted device which captures data from the source of motion, and tracks technical, physical and tactical data, indoors and outdoors.

## WHAT WE OFFER

Track and analyze over 15 soccer-specific metrics & monitor the data of your players in training and matches.

Training and match sessions data is available for players and their parents in Playermaker App.

Players can share their results, benchmark themselves against others and track performance levels over time.

The coach gets a consolidated view of all team members' physical and technical data using Coach dashboards.

### THE CORE DATA AVAILABLE WITH OUR TEAM SOLUTION INCLUDES:
