Youth Engagement Strategy

2022-2026

**Huntingdonshire
Football Association**

Why Youth Engagement?

- To listen to young people and trust their views
- To help make a difference and develop the game for future generations
- To support young people as participants across the game, helping them to progress in all aspects of their involvement (players, officials, coaches and volunteers)
- To make a positive difference for all involved
- To improve the support we give to clubs, their players and volunteers
- To grow and improve the game in all areas so that it benefits everyone

How?

Targets

Utilise our Youth Council to gain valuable feedback from the young people, using this to structure delivery and support activity within the county

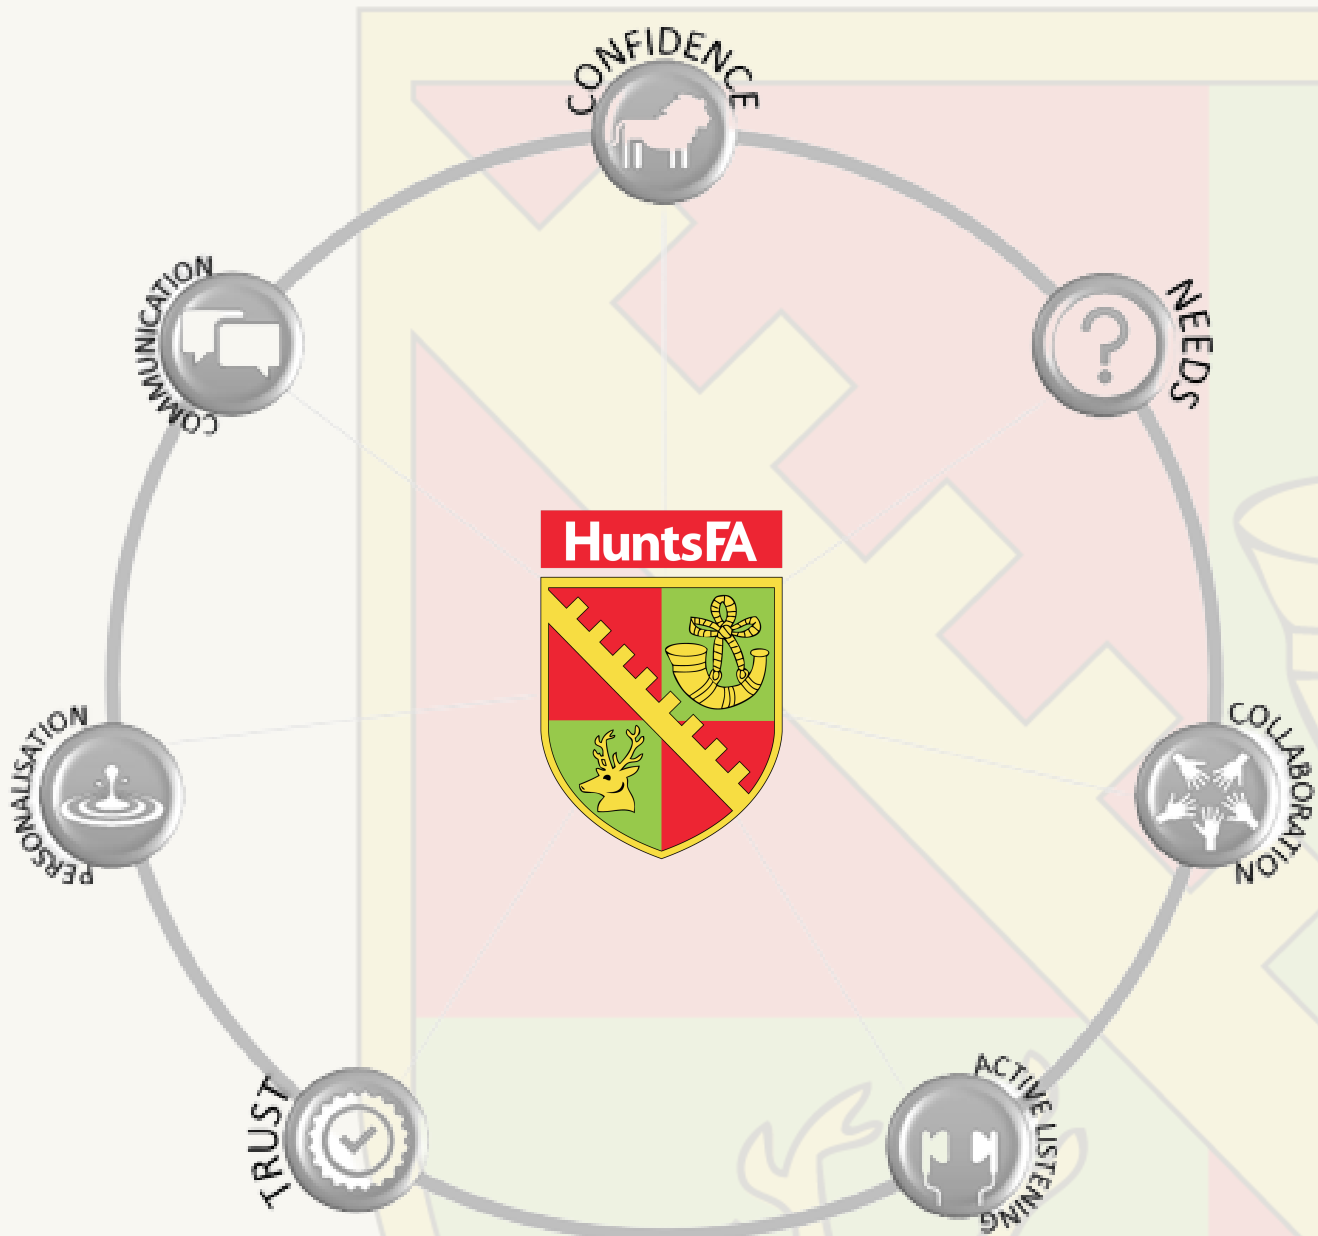

Support and encourage young referees to improve the game for officials.

Create a culture that exists within which young people's opinions and contributions are recognised, valued and acted upon.

Building Relationships

Hunts FA will utilise this model to shape the work we do across the business, this includes work with stakeholders, communities, clubs, schools and organisations.
