

# RESPECT

## Good Practice #3 2018/19

### Greentowers FC Hinckley – Use of Respect Resources and Signage

#### Context

At every training session and match day the club ensures there are reminders of Respect by displaying Respect Boards and other visuals all around the facilities, in view of Players, Parents, Coaches, Referees and Visiting Teams. Much investment has been placed to ensure positive messages are in and around the club. As well as many banners, A boards and A frames being displayed around the clubs venues, every player wears a kit displaying a 'respect' logo on their sleeve.

#### How this practice creates a fun, safe and inclusive environment

Understanding respect in the game gives young players a positive mindset both on and off the field. Win, lose or draw they thank the opposition players and coaches. Respect becomes culturally embedded within the club by the regular and consistent messages.

#### The positive impact on those individuals involved

The positive response from players, coaches and parent has been evident since the introduction of the respect literature within the parents' handbooks and the materials on display in and around training and match days.
