#### Team Officials

If you are a Team Manager, Team Coach, Team Assistant Manager or Team Assistant Coach, on your 'Home' tab, go to the 'My Club and Teams' tab.

In the 'Teams' drop down you will see the teams that you are either a player for, a parent of a player, or the Team Manager/Team Coach/Team Assistant Manager/Team Assistant Coach.

If you are one of the latter four roles, you will see a blue button on the right to download the squad list:

### Do Coaches still require the Player Registration Officer Role to access the Squad Lists?

Team Officials no longer require the role of 'Player Registration Officer' to access their squad lists. As long as they're Team Manager, Team Coach, Team Assistant Manager or Team Assistant Coach on Whole Game System, they will have access to their team Squad List. (These roles for Youth Football all include our Safeguarding checks). This now means the team officials can only view their own players.

To remove an individual as a 'Player Registration Officer', head over to the 'Club Officials' tab and click on the pencil by their Player Registration Officer Role and add an end role date of today
