

**NGS RESPECT REPORTING  
SHROPSHIRE FA**

# OVERVIEW

- The overall Respect score shown within this report is calculated by combining the scores for Respect both on and off the pitch into a one total score, and dividing the fixtures with a Positive Respect score (2) against the total number of fixtures.
- To generate this overall Respect score, the two Positive Respect both on and off the pitch scores out of 3 are added together to give a total score between 2 and 6. A score of 2 means that there was a Positive Respect rating of the environment both on and off the pitch during the fixture, with scores between 3-6 indicating Respect wasn't 100% positive both on and off the field.
- The scores displayed within this report represent how teams have rated the environment of their fixture in relation to Respect, and do not represent how teams have rated their opposition in relation to Respect.
- In assessing and actioning this report CFAs should take into consideration the number of reported fixtures. Although teams are marking the overall environment and not their direct opposition, if a particular team has consistently been involved in fixtures resulting in low Respect scores then this should prompt further investigation and ideally proactive work by the CFA with that club or team to use the Respect resources, initiatives and equipment scheme to improve behavioural standards.
- Leagues, Clubs and Teams must have a minimum of 3 responses to appear in the graphs provided. However, teams with less than 3 responses will still be included in the overall county scores.

Team	Total Score	Respect on the field	Respect off the field
Team A	2	1	1
Team A	3	1	2
Team A	5	2	3
Team A	6	3	3
Team A	2	1	1
Team A	4	3	1
Team A	3	1	2
Team A	4	2	2

Positive Respect is calculated based on the number team responses of scores in which the combine Respect score is 2, divided by the total number of team responses, multiplied by 100 to create a percentage.

In the example table above we can see that Team A has Positive Respect responses for **two** out of the **eight** team responses. This equates to a positive score of **25%**.

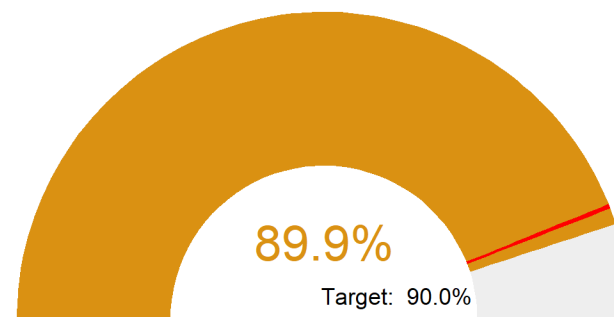

# EXECUTIVE SUMMARY

Shropshire FA are currently performing at **0.1pp below** the National 2019/20 Respect target of **90%**.

This Respect performance score is made up from the following:

- **1,064** Team Responses
- **631** Fixtures
- **406** Teams
- **9** Leagues

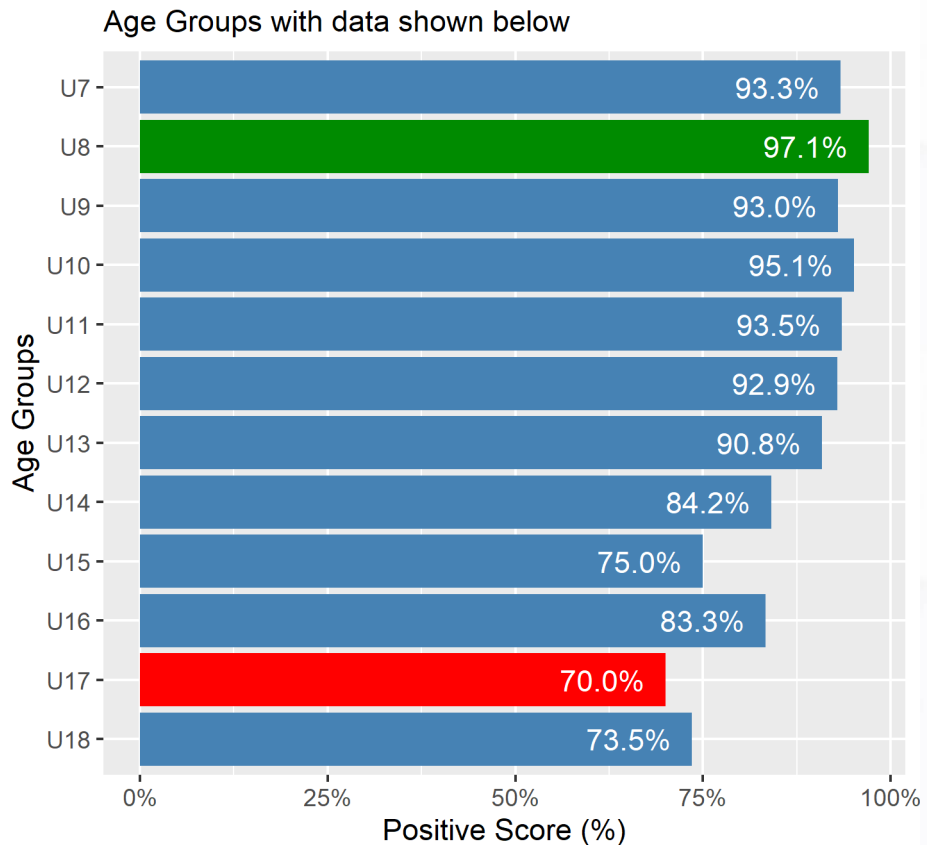

Positive Respect (%) at County level based on 1,064 Team Responses

Score	Team Responses	Breakdown
2	957	89.9%
3	68	6.4%
4	30	2.8%
5	4	0.4%
6	5	0.5%

# RESPECT BY AGE GROUP

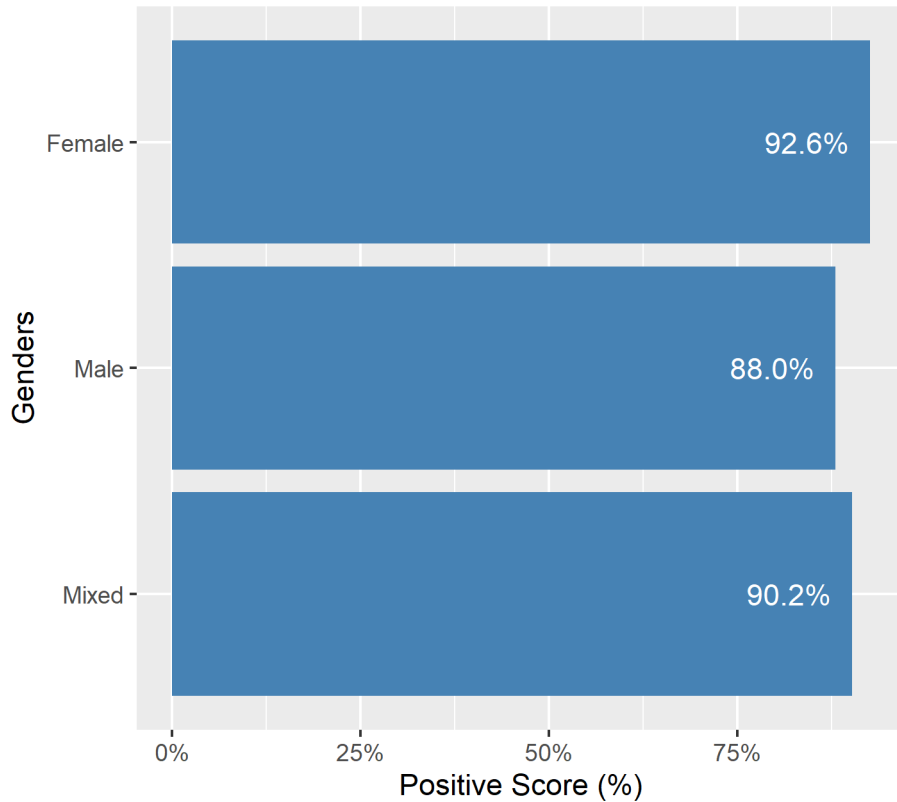

Metric	Team Responses	Positive
U7	60	93.3%
U8	103	97.1%
U9	100	93.0%
U10	143	95.1%
U11	139	93.5%
U12	127	92.9%
U13	109	90.8%
U14	101	84.2%
U15	84	75.0%
U16	54	83.3%
U17	10	70.0%
U18	34	73.5%

- Responses from teams up to U12s account for **63%** of the total team responses.
- The data suggests a negative relationship between the age of the players and positive Respect.
- **27.1%** difference between the highest and lowest Respect scores per age group.

# RESPECT BY GENDER

Genders with data shown below

Metric	Team Responses	Positive
Female	162	92.6%
Male	299	88.0%
Mixed	603	90.2%

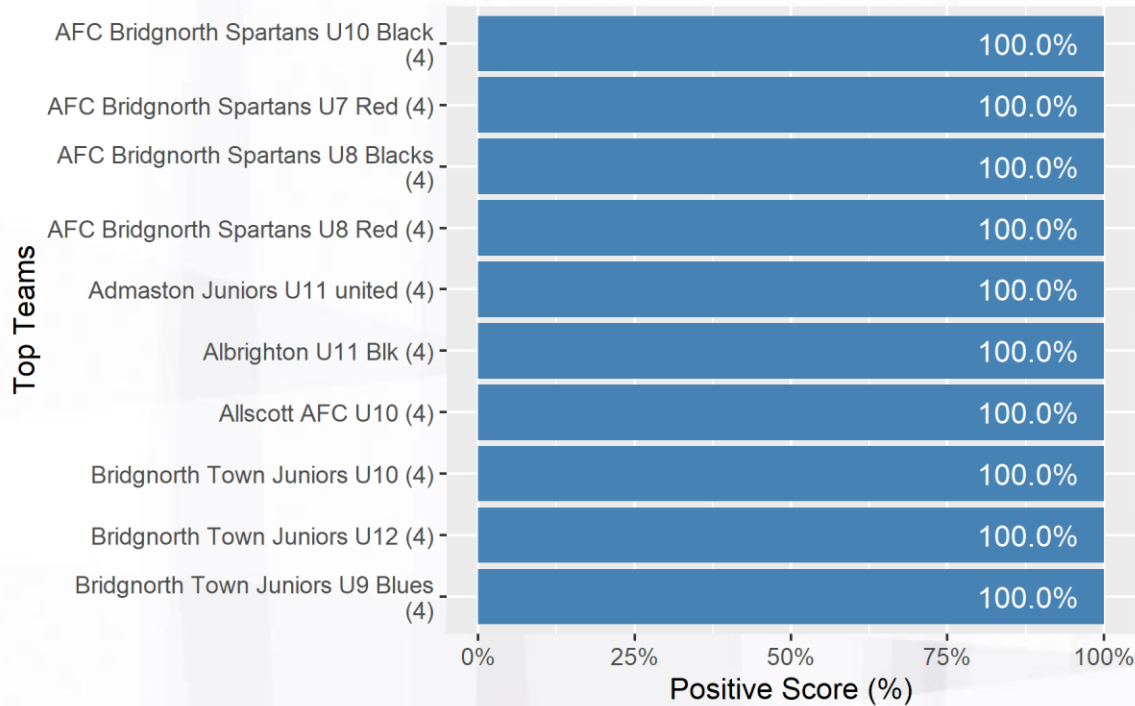

- Team responses from mixed teams account for **57%** of the total team responses.
- Female Respect exceeds Male Respect by **4.6%**.

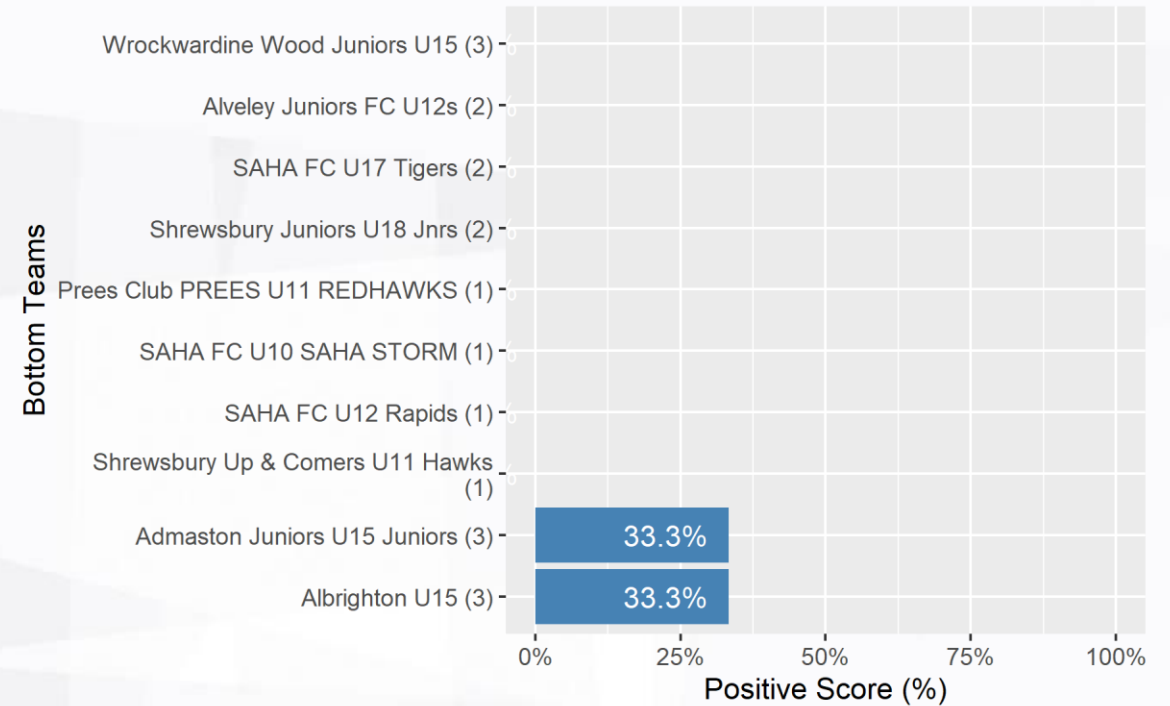

# RESPECT BY TEAMS

### Highest Submitted Respect Scores (%)

### Lowest Submitted Respect Scores (%)

The graph above shows the 10 teams with the highest positive Respect scores based on the Respect environment rating of a fixture both on and off the field (%). The number of team responses for each team is shown in brackets. This graph displays team responses of teams who are affiliated to Shropshire FA.

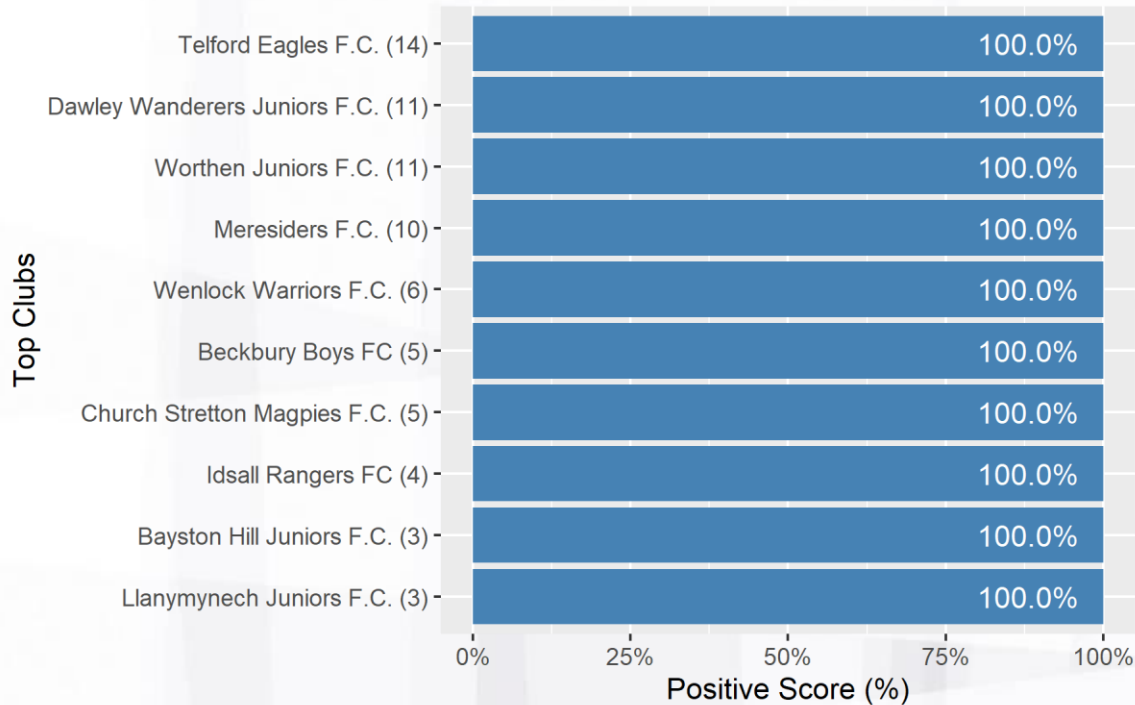

The graph above shows the 10 teams with the lowest positive Respect scores based on the Respect environment rating of a fixture both on and off the field (%). The number of team responses for each team is shown in brackets. This graph displays team responses of teams who are affiliated to Shropshire FA.

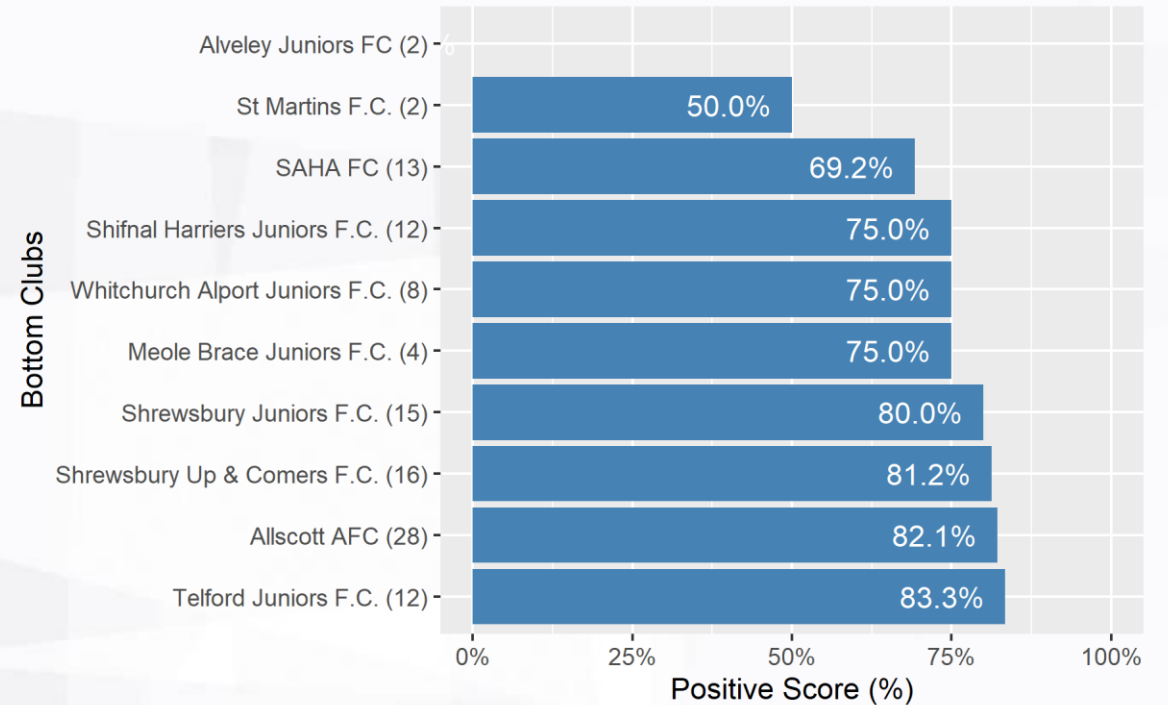

# RESPECT BY CLUBS

### Highest Submitted Respect Scores (%)

### Lowest Submitted Respect Scores (%)

The graph above shows the 10 clubs with the highest positive Respect scores based on the Respect environment rating of a fixture both on and off the field (%). The number of team responses for each club is shown in brackets. This graph displays clubs with team responses of teams who are affiliated to Shropshire FA.

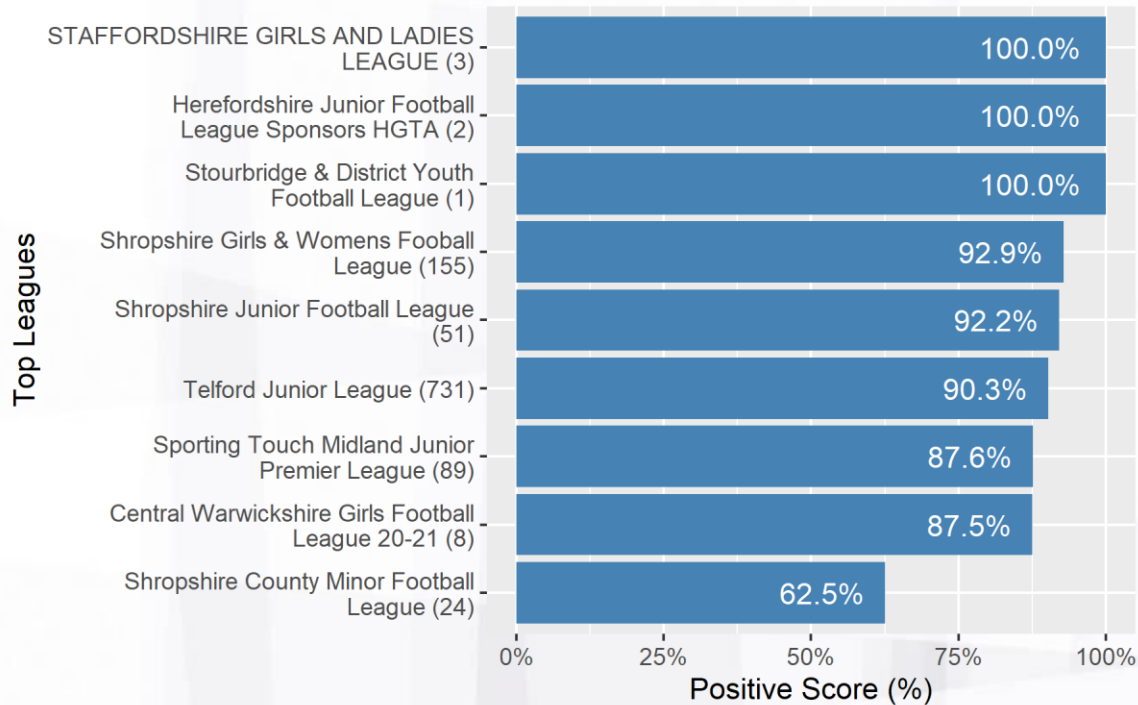

The graph above shows the 10 clubs with the lowest positive Respect scores based on the Respect environment rating of a fixture both on and off the field (%). The number of team responses for each club is shown in brackets. This graph displays clubs with team responses of teams who are affiliated to Shropshire FA.

# RESPECT BY LEAGUES

Highest Submitted Respect Scores (%)

Top Leagues

The graph above shows the 9 leagues with the lowest positive Respect scores based on the Respect environment rating of a fixture both on and off the field (%). The number of team responses for each league is shown in brackets. This graph displays leagues with team responses of teams who are affiliated to Shropshire FA, although leagues from other County FAs may be displayed should those teams play in cross border competitions.

# APPENDIX

- The target is set at 90% . So far this season the national average is 88%.
- Positive Respect is defined as a team giving a score of 1 for both on and off the field Respect for a fixture.
- The opposing team in a fixture does not have to respond in order for the score to be included
- The cut of Respect data used for this report is taken from The FAs Full-Time platform. For more information on the Respect KPI please see the NGS Data Governance Policy ([http://teamtalk/projectgroups/county\\_fa/w/data\\_governance\\_policy](http://teamtalk/projectgroups/county_fa/w/data_governance_policy))
- For validation and further insight deep diving, the raw data for this NGS Respect Report is available as an attachment within the automated report email
