Safeguarding Children Education Programme

Hopefully you will already have completed The FA's Safeguarding Children Workshop (formerly known as Child protection and best practice). If you haven't contact your CFA Welfare Officer immediately to get onto one of these workshops - this is a sound and engaging introduction to safeguarding in football and a must for every welfare officer.

Once you've completed this workshop get yourself booked onto a Welfare Officer Workshop. This three-hour workshop builds on what you will have covered in the Safeguarding Children Workshop and provides you with the necessary tools to carry out your role as CWO. It makes helpful use of the Policy and Procedures and explores what leagues and clubs need to have in place to demonstrate

best practice in relation to safeguarding children. It looks at the welfare officer role and what help and support is there to assist you.
