

The FA in 2018

WHO WE ARE

The FA is a not-for-profit organisation which gives back all of the money it makes to football. We sell TV rights for The Emirates FA Cup, get sponsors for the England teams and run Wembley Stadium connected by EE in order to improve football across England. We spend our money on facilities, clubs and coaches, supporting 50 County Football Associations (CFAs), over 22,000 clubs and nearly 90,000 teams to ensure that football is safe, fun and accessible For All.

WHERE WE ARE NOW

In 2016, The FA created a four-year strategic plan with the aim of creating winning England teams, inspirational venues, doubling participation in women's football, a world-leading coaching programme and flexible playing opportunities For All. We're making great progress, football is in good shape and it has a bright future.
