**OUTDOOR LEADERSHIP CENTRE**

- Archery
- Low & high rope courses
- 40ft climbing tower
- Power fan freefall experience
- Laser combat

# TIMELINE

## 1200s - 1800

### BEFORE SGP

Before it became a centre of world-class football, the land had a rich history - from being used as a hunting ground where wolves and wild boars roamed free to entertaining the crown and aristocracy.

## THE 1800s

### THE FIRST KICK-OFF

The Bass family took over the estate and created Berkley's own football team. The colours were: "green and yellow shirts with blue knickers". A racing stud was established and bred "Love Wisely", who won the Ascot Gold Cup in 1896.

## THE 2000s

### ENTER THE FA

The site was purchased in 2001 and plans seeded for SGP. In 2008 The FA reignited the project after 2.5 years of planning and extensive research.

## 2012

### A ROYAL OPENING

St. George's Park is officially opened by the then Duke and Duchess of Cambridge on the 9th October 2012. The final build costs were £105 million coming in on time and on budget.

# 2014

## CELEBRATING DIVERSITY

A statue of pioneering footballer, Arthur Wharton, is revealed. Wharton was the first black football player to play professionally, signed to Rotherham in 1889. We also celebrated the Under-17 Men's team winning the European Championship.

# 2015

## LEADING LADIES

The Senior Women's team won Bronze in the World Cup. An extra-time penalty goal ensured England beat Germany for the first time in 31 years.

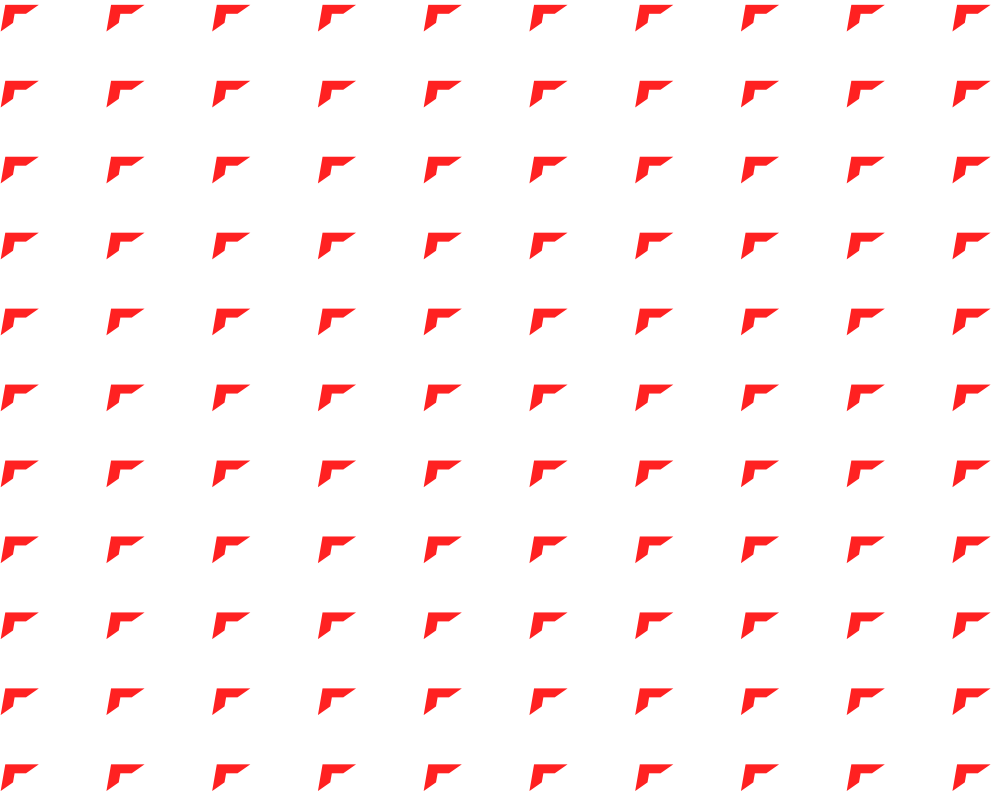

# 2017

## A YEAR OF CELEBRATIONS

SGP celebrated its 5th birthday and introduced four new teams including Powerchair, Deaf Senior Men and Deaf Men's development team. We also celebrated Sir Bobby Charlton's 80th birthday, naming the Wembley replica pitch in his honour.

## WINNING ENGLAND TEAMS

Another success for the Lionesses as we see the Senior Women reach the semi-finals of the Euros. The Young Lions also did an outstanding job winning the Under-17 World Cup, Under-19 European Championship and Under-20 World Cup.

# 2018

## STRIVING FORWARDS

A great year of football as we saw the Men's team reach the World Cup semi-final for the first time in 28 years. The Under-20 Women's team also did us proud as they took home bronze medals.

# 2019

## THE SUCCESS CONTINUES

St. George's Park continues to grow, as well as being the home for some of the world's most renowned athletes. 2019 sees the Senior Women's team win the She Believes Cup. Meanwhile the Powerchair side were crowned European champions.

# 2021

## A NATION UNITED

An unforgettable journey for the Senior Men reaching the European Final for the first time. Six out of the seven England matches were played at Wembley as crowds returned post covid with the nation united watching the team progress through each round. England's basecamp throughout the tournament was SGP.

## GAME CHANGERS, HISTORY MAKERS

History was made as the Lionesses ended 56 years of hurt, becoming English football's first senior trophy winners since 1966, winning EURO 2022 on home soil. In the year of the tenth anniversary of St. George's Park, the Lionesses' success completed the objective first set out at the site's opening to win a major senior trophy within 15 years. St. George's Park also supported England Men's Under-19's team winning the European Championship in Slovakia.

# 2022
