Pick your perfect tub: chocolate  / vanilla  / salted caramel  / strawberries and cream  / mango sorbet  / black coconut 
0.2 kg CO₂e

BE CLIMATE SMART

We've partnered with sustainability experts Klimato to share the climate impact of our dishes. Choose dishes labelled with low CO₂e (carbon dioxide equivalents) to make more climate-friendly, low carbon choices.

Low: 0.1-0.5 kg CO₂e - Dishes with less than 0.5 kg CO₂e have a low climate impact and are in line with the UN's sustainability goals.

Medium: 0.6-1.5 kg CO₂e - The average UK meal in 2023 has 1.6 kg of CO₂e, so any dish less than this, but above 0.5 kg of CO₂e has a medium climate impact.

High: 1.6+ kg CO₂e - Any dish with over 1.6 kg of CO₂e has a high climate impact, as it is higher than the UK average today.
